

Session Program

Feb 26 - 28, 2025

4th Workshop on Optimal Control of
Dynamical Systems and Applications

4th Workshop on Optimal Control of Dynamical Systems and Applications

Wednesday block 2

Villany
BOCK HOTEL ERMITAGE****

Wed, February 26

11:00 AM

Wednesday block 2

Session | Location: Villany, BOCK HOTEL ERMITAGE****

11:00 - 11:20 AM

Data-Driven Controller Synthesis for Dissipativity: a Dualization-Based Approach

Speaker

Andrej Jokić

11:20 - 11:40 AM

System Identification of LTI Systems With Generalized Orthogonal Basis Functions

Speaker

Gergő Ungvári

11:40 AM - 12:00 PM

Rational Prony methods for system identification

Speaker

Tamás Dózsa

12:00 PM
